NEWSLETTER SPRING 1990

COME TO THE SPRING PANCAKE SUPPER!

TLNA will sponsor its annual Pancake Supper on Thursday, April 5, at 6:00 p.m. at Christ Presbyterian Church, 944 E. Gorham.

Come and enjoy all the pancakes, sausages, applesauce and beverages you can handle. For adults the price is \$2.50 and for children \$1.00. What a great way to get together with your neighbors! See you there.

If you are interested in helping with this event please contact Pam Polenz at 256-7646.

HERE COME THE BUTTERFLIES!

During the next couple of years, the south corner of Tenney Park (near the corner of Marston and East Johnson) may be swarming with butterflies if all goes well. I received a grant from the Parks Department through the Marguerite Pohle Trust Fund to plant a 500 square foot butterfly garden this May. The grant, endorsed by the Neighborhood Association and Alder David Wallner, will cover the entire cost of soil amenities and plant materials used in establishing the garden.

The design incorporates over 250 plants, representing 26 species of native perennials, to meet the nectaring and caterpillar food needs of a variety of butterflies likely to be found in Madison. It complements the trees and shrubs in the area that provide additional food

and cover for butterflies, takes advantage of

The Newsletter of the Tenney-Lapham Neighborhood Association is published quarterly and distributed without charge to all households in the Tenney-Lapham Neighborhood (delineated by Lake Mendota, North Livingston Street, East Washington Avenue, and the Yahara River). Requests for information regarding submissions and advertising may be directed to the Editor, TLNA, P.O. Box 703, Madison, WI 53701.

PARKS and PLAYGROUNDS

NEIGHBORHOOD PARK IMPROVEMENTS COMING—Tenney Park is in store for some major repair and replacement plans in the near future. The Tenney-Lapham Neighborhood Association has been working together with the city's park planning commission to purchase new playground equipment. The old dilapidated equipment currently at the park is insufficient for the large use the playground attracts.

The city and TLNA are working out final arrangements in matching funds to purchase this equipment which is to be installed (hopefully) this summer and next. If you are interested in donating to the playground fund set up by TLNA, you may contact either Ed Jepsen 255-2845 or Jim Dunn 255-6430. Every little bit counts!

TENNIS ANYONE?—Hopefully you'll be hearing that phrase a lot over the next few months. The Tennis courts at Tenney receive almost constant day and night play; they are now in need of repair. Neighborhood tennis players who use the courts are encouraged to let the Parks Department know. The Parks planning commission is ready to do this much needed work; however, it may get lost in budgetary cuts without neighborhood support.

BUTTERFLIES TOO!—Alan and Karen Crossley, 459 Sidney Street, submitted a butterfly garden concept to the city's Park improvement Marguerite Pohle Trust Fund. Their entry was accepted and planting will begin this summer in the south corner of Tenney Park. Congratulations, Crossleys!

CONCERNS—Parks are used by a large portion of our neighborhood. They are important parts of a neighborhood's identity. Tenney is in need of other repairs and improvements. If you would like to voice your concerns or ideas for improvements, please contact Jim Dunn or Ed Jepsen with your ideas. Also, if you haven't already done so, please fill out the survey in the last newsletter issue. We have more if you need one. See you at the park!

LEGISLATOR'S REPORT

APRIL REBATE CHECKS: QUESTIONS AND ANSWERS

The one-time April refund for the School Property Tax/Rent Credit is coming up. Below is a list of questions most often asked about this rebate. I hope you find these answers helpful.

What is the rebate check?

It is a property tax relief measure that was enacted by the legislature as part of the biennial budget: a one-time 13% increase in the school property tax/rent credit which appears on the income tax form. The present rebate is based on the property taxes or rent constituting property taxes paid in tax years 1987 and 1988. The credit is set at 6.5% for up to \$2,000 of property taxes paid in each year. The maximum credit is \$130 in each year for a total of \$260 over the two-year period.

Who is eligible for the rebate check?

The one-time credit will only be paid to taxpayers who had a net state individual income tax liability in tax years 1987 and 1988 and cannot exceed the amount of the taxpayer's state income tax liability in each year. In other words, the individual would have to have paid state income taxes in 1987 and/or 1988 and paid property taxes or rent constituting property taxes in that year. The tax credit represents a rebate by the state of a portion of individual income taxes collected in 1987 and 1988.

If I am eligible, what do I have to do to get the rebate check?

Nothing, if you reside at the same address you lived at in 1988. The Department of Revenue (DOR) will calculate the rebate from income tax forms filed in 1987 and 1988 and mail out the check in April. If you have moved, you should contact the DOR and inform them of your new address.

What if I doubled up my property tax payments, i.e., paid two years of property taxes in one year?

You are eligible for the credit in each year you have paid property taxes and had an income tax liability. Therefore, if you paid income taxes and you paid two years worth of property taxes in 1987 but none in 1988, you are eligible for the credit in tax year 1987 but not in 1988. However, the 6.5% credit still applies only to the first \$2,000 worth of property taxes paid in that year. *Don't forget the Homestead rebate. If you're household income is under \$18,000, you might be eligible for Homestead Credit. Forms are available through the Department of Revenue, or by calling my office at 266-8570.

GARDENS

ANNUAL GARDEN TOUR TO BE HELD ON SATURDAY, JUNE 2

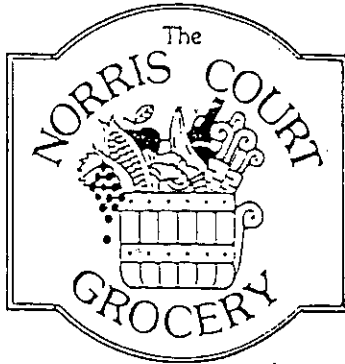

The TLNA Ad Hoc Garden Committee has announced that the Fourth Annual TLNA Garden Tour will be held on Saturday, June 2, 1:00-4:00 pm (with a rain date on Sunday, June 3). This year's tour will concentrate on "Area A" of the TLNA neighborhood, bounded by East Johnson and East Washington, from Brearly to the Yahara River. Participants can begin the self-guided tour at any time during the afternoon hours set.

Admission fees will be \$2 for adults and \$1 for seniors (over 65) and children (under 12). Arrangements are still pending, but tickets will probably be available at Lapham School parking lot and Tenney Park shelter. Parking should be available at or near both of those sites. Look for poster notices the week before or call 255-6979 if needed.

All proceeds from the tour will go toward expansion of the TLNA Welcome Garden. The committee is once again asking gardeners who expect to have extra annual and perennial plants from their gardens to donate them to be sold during the Garden Tour for additional fund-raising. Extra plants will also be accepted for inclusion in the Welcome Garden itself.

Tax-deductible cash donations to the TLNA Welcome Garden Project can be made payable to the Tenney-Lapham Corporation and sent to: P.O. Box 1105, Madison, WI 53701 (not the same address as TLNA). In-kind contributions from businesses or individuals are also much appreciated, especially garden supplies, plants, and shrubs.

If you have plants to donate or a garden to recommend for inclusion in the Tour, please call Rob Latousek 255-6979.

ANNOUNCEMENTS

THE CENSUS IS COMING! THE CENSUS IS COMING!

The 1990 U.S. Census is just around the corner! Every 10 years, the United States counts its residents, and uses the information in a variety of important ways. The 1990 Census will describe the nation and its communities — who lives there, where they live, how they are housed, and their social needs. Everyone in Madison must be counted as part of the Census, because:

It's useful. Census information is used to provide population counts needed to apportion seats in the U.S. House of Representatives and to determine state legislative district boundaries. On the local, state, and federal governmental levels, the data helps in developing social service programs and programs to reduce unemployment, in developing transportation systems, in locating new schools, in setting up day care centers and health clinics, and so on. Census data is used for everything from academic research to business and marketing development.

It's confidential. It is ONLY the numeric totals, not personal answers, which are used in all these ways. Federal law does not allow ANYBODY — not welfare agencies, the Immigration and Naturalization Service, the Internal Revenue Service, courts, police, the military — to obtain information showing how an individual answered the census questionnaire.

It's easy. On March 23, a Census form will arrive in each Madisonian's mailbox. It only takes a few minutes to answer the questions and mail the form back to the Census Bureau.

Telephone assistance will be available in a number of languages for those Madisonians who need help in answering their questionnaire. In addition, Walk-In Assistance Centers will be set up around Madison for even more personalized attention.

Remember, it's useful; it's confidential; it's easy. When the Census form arrives, fill it out!

ALDER'S REPORT

PARKS NEWS—In my annual parks budget request, I have submitted several proposals affecting the Tenney-Lapham area.

1. My top priority will be to request \$15,000 for purchasing children's playground equipment for Tenney Park. Phase one of this important project should begin this summer, with about \$15,000 now available through city money and neighborhood donations. Phase two could be completed next year if the Parks Commission approves my request.

2. Improvements to the Tenney Park tennis courts.

3. Repair or replacement of the battered wire fence at Reynolds Field.

4. Initial funding to start the Linear Park/Bikeway along the former Soo Line rail corridor leading through the Marquette neighborhood. This trail would be a real plus for bikers, pedestrians and cross-country skiers. It would also provide an eastside link to the state's bike trail system, which currently hooks up to the east and west ends of the city. Area residents who support this idea should give me a call, or contact the Parks Dept. and the Mayor's Office to express your support. And, if you don't like the idea, let me know why.

PARK AWAITS BUTTERFLIES—Congratulations are in order to Alan and Nancy Crossley, for their winning butterfly garden proposal for Tenney Park. The association will receive funds this spring from the Pohle Trust Fund to help pay for native perennials and other plantings. The garden will be located along the path near Marston Ave. The People for Parks Committee of the Parks Commission made the final awards from entries received from around the city.

HOUSING PLANS—Phase II of the "Own Downtown" marketing campaign to promote the Homebuyer's Assistance and Installment Loan Programs will begin this spring. The Community Development Authority has allocated \$10,000 for this marketing push. The major emphasis will be in Isthmus neighborhoods. This new home ownership drive should eventually have a positive effect on areas like Tenney-Lapham, and improve the chances of keeping Lapham School open in the long run.

In addition, I'll be working with Downtown Madison Inc. and city staff to create a guide to promote downtown living. The guide will include information on neighborhood history,

Figures released at that meeting show a whopping 400 percent speeding enforcement increase in this area during the past two years. My thanks to our area patrol officers for this extra effort. As alderman for the 2nd District, I've pushed for added police patrols in our area, and I'll continue to do so during the next year. Residents, especially children and the elderly, have the right to cross city streets without risking life or limb.

On another traffic item, I've renewed discussions with the Dept. of Transportation about putting in a stop sign at the Marston/Sherman corner. City staff had initially ruled out putting a sign at that intersection, despite a neighborhood petition. I'll continue to support residents on this reasonable request. There's no doubt about it, traffic along Sherman moves too fast, and park users need a crossing point along Sherman. Stay tuned.

CIVIC CENTER FRIENDS—I was pleased to see several 2nd Dist. residents helping out at the Civic Center's recent 10th birthday celebration. My personal thanks to "friends" David Strandberg, Bob and Fayth Kail and Mary Houtman for making it a special day at the Civic Center. Prior to the celebration, the City Council adopted a resolution I sponsored honoring the civic center staff and volunteers for their past 10 years of successful programming.

BUSINESS

Madison Dairy Produce Co.
1018 East Washington Avenue

Ever wonder what they do in those big, butter-colored buildings on the corner of Brearly and East Washington? Well, they make butter, that's what—350,000 pounds of it a day, according to Chuck Steinhauer, vice-president of Madison Dairy Produce Company (Madison Dairy, for short).

Steinhauer's great grandfather founded the company in 1906, just off the square on King Street. (His father, Fritz, is now president.) It moved to its present location in 1928. The first expansion came in 1947, and there have been several since then. The company employs 35-40 people, most from Madison. That means that they produce up to 10,000 pounds of butter per day per employe—an indication of the high level of automation at the plant.

All they make at Madison Dairy is butter. Some 12 to 15 tank trucks arrive daily, bearing cream separated from milk at bottling plants in Iowa, Illinois, Indiana and Wisconsin. Once the cream arrives, it is pasteurized, churned into butter, and packaged. Although some of it retails locally (Deerfield Butter, for example), most goes to the Chicago or East Coast markets.

Steinhauer says that the butter industry has been hard hit by the consumer's height-

ened concern over cholesterol. "Our industry hasn't done a good job of educating people [about the amount of cholesterol in butter]," he said. He believes there is a lot of misinformation in the public mind concerning butter, and notes that there are

only 10 milligrams of it in one pat. And in response to what he feels is the undue concern about cholesterol, Steinhauer anticipates the company introducing a light butter, with less fat per pat.

(continued from previous page)

But despite all that, business is still good for Madison Dairy, as evidenced by the expansion now underway. More jobs are in the offing. An office

building will go up on the corner where Kokomo Joe's was, and production areas will move into what is now office space. They will, that is, as soon as the old underground gas tanks can

be removed from the site of the office building.

At some time in the past (at least 25 years ago, in Steinhauer's estimate), there was a gas station on the corner of Brearly and East Washington. When excavation began for the foundation of the new office building, the smell of gasoline filled the air, and six underground gas tanks were discovered. They were empty, but gasoline permeated the surrounding earth and now must be cleaned up. Since Madison Dairy owns the property, it is their responsibility. And according to Steinhauer, it's a responsibility they gladly accept. "We want to do our best to be a good neighbor," he said.

In keeping with that sentiment, Madison Dairy has made an effort to address the chief complaint voiced by nearby residents — the noise of the trucks that deliver cream and pick up butter. Signs remind drivers that they are in a residential neighborhood, and Steinhauer says that although the signs are somewhat effective, the problem remains. He feels that, to some extent, noise is one of the costs of having commercial and residential development in the same area.

Although he grew up on the west side of Madison, Steinhauer now lives on the east side and prefers it. And he says that Madison Dairy is content to stay where it is for the foreseeable future. "It's worked out well for us," he said.

RECYCLING

Neighborhood recyclers take note: the Tenney-Lapham Recycling Program has changed both its time and places of collection.

Starting with the March pickup, recycled goods are collected on the first Saturday of the month at designated collection points throughout the neighborhood. The new system, modelled after a very successful recycling program in the Williamson-Marquette neighborhood, has helped the T-L program become more efficient and better able to handle an increased volume of materials.

Previously, our recyclables were collected on the morning of the first garbage collection of the month from the porch or yard of each participating household. The recycling collections were made well before the trash pickups, often in the dark, when it was difficult to see house numbers or distinguish recycled items from common waste. Too often, bags of recyclable materials were missed or taken by the city's garbage collectors, causing some frustrated residents to drop out of the Tenney-Lapham program.

All that has changed.

T-L recyclers are now asked to put their items in a posted area near their home by 8:30 a.m. on the first Saturday of the month., Signs for the collection points are put up the previous evening and removed when the items are collected on Saturday morning. Signs for the collection points—on city property between the sidewalk and curb—are generally visible to nearby

residents, but if you're unsure where to leave your items, please call one of your neighbors listed below.

By May we plan to mark the pickup sites with the type of signs that are used in yards to promote political candidates.

811 E. JOHNSON STREET
 MADISON, WISCONSIN 53703

Res. 249-6773
 Bus. 256-0265

Once the materials are collected, they're taken to the new eastside neighborhood recycling center on East Wilson Street off Brearly and sorted for pickup by Recycle Worlds. Under the new system, neighborhood collection and sorting are both done on the first Saturday of the month from 9 a.m. to about noon. Volunteers are always needed for all phases of the recycling program, particularly the sorting sessions. We can also use a half hour of help at 4:30 p.m. on the first Thursday of each month to load plastic containers, and for up to two hours on the second Saturdays of the month to help in loading containers of glass.

If you'd like to contribute your labor to the neighborhood recycling program or have any questions about its operation, please call any of these neighbors:

Vicki Abshere, 1038 E. Dayton St., 255-1734

Larry Godding, 1325 E. Dayton, 255-4168

John Bell, 423 Sidney St., 251-4261

Peter Sample, Norris Court Apts, 259-0008

A further note: we appreciate the use of plastic garbage bags for your recyclables. They really speed the collection process and help reduce litter and glass breakage. (We always try to keep reusing them.) Remember, too, that we are unable to recycle plastic food containers. It is helpful (though not necessary) to sort your items and separate different colors of glass, and please remove the lids of any containers and the labels of tin cans.

Meanwhile, be looking for a collection site sign coming soon to a yard near you.

John Bell

(Ed. note: For further information on what items are accepted for recycling, please refer to the Winter 1990 Newsletter, or call one of the people noted above.)

SWAN AWARD

This month's Swan Award goes, by popular (word-of-mouth) acclaim, to Rob Latousek and Brian McCormick for their wonderful transformation of both home and garden at 407 North Brearly Street. My husband and I moved into a house

right around the corner from them (with adjoining backyards) about three years ago, not long after they had arrived in the neighborhood themselves. Since that time we have been able to watch their continual whirlwind of activity: painting, roofing,

terracing—and serving as unpaid advisors to other, less skillful gardeners and carpenters. From chimes to roses to a mini-goldfish pond, their home is a delight to the senses!

CITY NOTICES

BRUSH COLLECTION SCHEDULE

Effective from April 2 through October 26, 1990.

If your refuse is collected on:	Place brush at curb by 7 a.m. on Monday of:
Mon./Tues.	1st week of month
Wed./Thurs.	3rd week of month
Friday	4th week of month

Residents are asked to remove any metal, dirt, stones, and other inorganic materials which cause serious damage to the chippers used in processing.

The City will not collect lawn or garden materials, fencing, stumps, or branches larger than 8 inches in diameter or 8 feet in length.

No bags or containers should be used. Small bunches of brush should be tied with twine/string in 4 ft. X 8 in. (diam.) bundles.

All brush should be stacked neatly with branches lying either parallel or perpendicular to the curb and well away from trees or other obstructions.

BRUSH DROP-OFF SITES

East: 4602 Sycamore Ave.

West: 1501 W. Badger Rd.

Monday thru Friday, 8:00 am-5:00 pm

For Brush Collection Info, CALL: 267-2088

YARD WASTE DROP-OFF SITES

Both above "brush" sites, and

725 Forward Dr. (Ice Arena)

Monday thru Friday, 4:00-9:00 pm,

Saturday/Sunday, 8:00 am-9:00 pm.

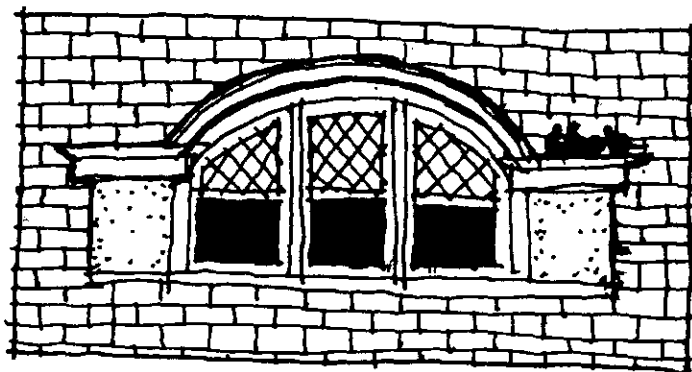

For Yard Waste Info, CALL: 246-4532

After 4:00 pm, CALL: 267-2626

SPECIAL SPRING YARD WASTE COLLECTION

The City of Madison will conduct a special collection of yard waste beginning April 2, 1990. Each neighborhood is scheduled for TWO collections. Yard waste should be **PILED LOOSE** at the street edge. Residents who must bag their yard waste should use **CLEAR BAGS** or bags clearly marked as containing yard waste. **DO NOT TIE BAGS; LEAVE THEM OPEN. YARD WASTE MIXED WITH REFUSE AND BRUSH WILL NOT BE COLLECTED.**

If your refuse is collected on:	Place yard waste at curb by 7 a.m. on Monday	
Mon./Tues./Wed.	April 2	April 16
Thurs./Fri.	April 9	April 23

COME TO MARQUETTE-LAPHAM CARNIVAL!

The Marquette-Lapham Elementary Program will be holding its 10th Annual Spring Carnival on Thursday, May 3, from 5:30 to 8 p.m. in the Marquette School fieldhouse. There will be food, games, activities, and the ever popular annual raffle. Raffle tickets will be available through Marquette-Lapham Elementary students. Don't miss a chance to win!

Everyone is welcome to attend. Plan to have supper and share in a night of fun!

We are looking for volunteers to help. If interested in giving a little or a lot of time, please call Pam Polenz (256-7646) or Barb Perkins (255-1342). Thanks. See you there!

the readily available water supply provided by the lagoon, is south facing for maximum warming (important for cold-blooded butterflies), and is adjacent to the walking path which will be an excellent site for butterfly "puddling."

Native perennials were chosen over annuals and non-natives because of their winter hardiness, ease of maintenance, and importance to native butterflies. Plant species were selected, in part, based on the butterfly species I hope to attract. These include butterflies such as: *Tiger Swallowtail*, *Black Swallowtail*, *Cabbage Butterfly*, *Orange Sulphur*, *Common Sulphur*, *Banded Hairstreak*, *Spring Azure*, *Great Spangled Fritillary*, *Pearl Crescent*, *Mourning Cloak*, *American Painted Lady*, *Viceroy* and *Monarch*.

As Matthew Tekulsky writes in *The Butterfly Garden*, "Throughout history, we have watched the ethereal flight of butterflies with awe and wonder. Butterflies have been the inspiration of poets and the solace of pouting children." So keep your eyes on the south corner of the park. Sometime in May my family and I will

be out there turning over the soil and planting the garden. Stop by, ask questions, take notes, and watch for butterflies. Then try butterfly gardening in your own backyard. Flower gardening will take on a whole new meaning if you just pick flowers that are also important nectaring and food sources for butterflies.

TENNEY PARK BUTTERFLY GARDEN

HAPPY RETIREMENT, SAM!

In a neighborhood like Tenney-Lapham where change often seems to be the status quo, one of the constants for many of us during the last two decades has been our friendly letter carrier, Sam Cuccia. Alas, even this has changed when Sam retired in December after 28 years with the Post Office, including the last 20 years as the letter carrier on Route #316.

Route #316 encompasses the western part of our neighborhood, including Norris Court, the 900 block of E. Gorham, the 800-1200 blocks of E. Johnson and E. Dayton and all the cross streets. As a former relief letter carrier myself, I would try to avoid routes like #316 because of the confusion of houses having many names per residence, the massive turnover of people in the spring and fall, and a less than stellar effort on the part of some households to keep sidewalks and steps cleared of snow and ice. However, Sam took these obstacles in stride and gave us 20 years of day-in, day-out fine service.

According to Sam the complexion of the neighborhood has changed since 1970. In the early days it was mainly owner-occupied family residences, but beginning in the mid-70's the neighborhood changed to more absentee-landlord, student-oriented housing. Sam also noted

that the Norris Court apartments used to be mainly long-term residents, but that complex has changed over to much more transient tenants.

There were also fewer neighborhood businesses when Sam started the route, although old-timers like Whole Earth and Zimmerman's have been with us for the duration. Sam remembered the time when there was a drug store where Norris Court Grocery is today; he also fondly recalled George's Food Shop where Burnie's Rock Shop is now.

Sam's replacement is a familiar sight to many of us. He is Dan Georgeson, who was Sam's relief carrier for many years.

Sam said he is going to miss the people and the route, though he won't miss his 6 a.m. starting time. Sam and his wife have two children, a son in Madison and a daughter in Illinois, and a grandchild. He plans to do a bit of travelling but mainly just relax.

Those of us who have had regular contact with Sam will miss him. As Mary from Whole Earth said, "Sam was, above all, a friend, and we miss our friends." We wish Sam a happy and healthy retirement!
