WATERCOLOR PAINTING

The close-up world of leaves and the splendor of landscape has captured Sharon's attention in her painting. Sharon's watercolor style is described as Hard-edge Watercolor Painting. Each wash of color is left to dry before another is placed next to it. Multiple layers of color washes create saturated colors and dark shadows. SERIGRAPH PRINTING & WATERCOLOR PAINTING

Since 1987, Bill has found it enjoyable to depict scenes from creation—imitating nature. A favorite subject matter is wild flowers—flowers that have become a metaphor of the brevity of life. The prints Bill creates capture the light and fleeting beauty of objects of nature. A serigraph is an original color

print made by pressing ink/pigment through a silkscreen stencil. Bill is also working on a watercolor series, along with Sharon, called "Fruitful Art".

DRAWING AND PRINTMAKING

Jane has always loved art; it was her avocation until she retired to make a commitment to becoming an artist. Madison is a great town in which to practice art with its excellent museums, galleries and studio courses. Today, she primarily considers herself a printmaker creating works using woodcut, etching, calligraphic and monoprint techniques. Most recently, she has been experimenting with ink on oriental papers.

ASSEMBLAGE ART

Have you ever noticed how many feathers you can find on the sidewalk? Whenever I see one I have an urge to pick it up. Always have. Feathers, interesting rocks or sticks, shiny objects, and other things lying around can catch my eye. Kind of like a crow. My artwork consists of found and re-purposed materials assembled into freestanding and wall hung sculptural pieces. Some of my artwork is bird inspired, some is figurative, and others are collage like. An intention of my artwork is to use ordinary things which have no real value, in and of themselves, and put these things together to build something interesting. I hope people will see these ordinary objects in a new light. Locally, my artwork can be seen at Hatch Art House on Williamson Street.

6. Hannah Sandvold, 207 N Ingersoll Street
608-609-7296, hcsandvold.com

WOODBLOCK PRINTS, PAINTING, & MIXED MEDIA

Hannah has always used art as a means to process and document life experiences, and uses woodcut, pen & ink, and acrylic to capture moments and impressions from remarkable places, especially the great US National Parks out west that she's had the privilege of visiting. Hannah also freelances as an illustrator and graphic designer. (She also happens to have painted

one of the Bucky statues featured all over town this summer- have you seen it?)

7. Shelby Ellison, 936 E. Dayton St.

715-570-0217

VEGETABLE JEWELRY

Shelby became passionate about designing and creating jewelry at a very early age. She was also very intrigued by biology and nature and in 2012 received her PhD in plant genetics from the University of California, Davis. She returned to Madison and now works as a scientist at the University, in a carrot research lab. Realizing the beauty in the various pigmented carrots she worked with, Shelby wanted to find a way to artistically display her study organism; enter carrot earrings. Shelby has been making carrot earrings for the past five years and has had trouble keeping up with demand. She will be displaying her earrings and several other pieces tying together nature and art. See some of her work here:
