WATERCOLOR PAINTING

The close-up world of leaves and the splendor of landscape has captured Sharon's attention in her painting. Sharon's watercolor style is described as Hard-edge Watercolor Painting. Each wash of color is left to dry before another is placed next to it. Multiple layers of color washes create saturated colors and dark shadows. SERIGRAPH PRINTING & WATERCOLOR PAINTING

Since 1987, Bill has found it enjoyable to depict scenes from creation—imitating nature. A favorite subject matter is wild flowers—flowers that have become a metaphor of the brevity of life. The prints Bill creates capture the light and fleeting beauty of objects of nature. A serigraph is an original color print made by pressing ink/pigment through a silkscreen stencil. Bill is also working on a watercolor series, along with Sharon, called "Fruitful Art".

He has exhibited in both solo and group shows throughout Madison. Connelly's work is defined by a strong sense of harmony within abstract forms. The colors he uses are vibrant and nourishing with imagery that is a meditation on composition. His whimsical illustrations speak to the broad range of his artistic exploration. Throughout all his disciplines, there is a common search for the creative truth.

3. Jane Scharer, 842 Prospect Place

PRINTMAKING

Jane has always loved art; it was her avocation until she retired to make a commitment to becoming an artist. Madison is a great town in which to practice art with its excellent museums, galleries and studio courses. Today, she primarily considers herself a printmaker creating works using woodcut, etching, calligraphic and monoprint techniques. Most recently she has been experimenting with ink on oriental papers.

608-219-0088

PHOTOGRAPHY

Chris and Mike have managed to combine two of their favorite pastimes: travel and photography. Mike has been traveling the world since the early 70's with Chris joining him in the mid-80's and have visited over 60 countries. Photos from 37 countries on all 7 continents are on display from A (*Antarctica & Australia*) to Z (*Zambia & Zimbabwe*). Though neither is a professional photographer, both enjoy making photos that capture the faces and places they've visited and sharing them with their families and friends.

5. Stefan Schmidt, 920 Castle Place

MIXED MEDIA

Stefan earned his Masters of Fine Arts degree from the UW-Madison in 1986 where he studied printmaking with an emphasis on Serigraphy (*silk screen*). Stefan converted an old warehouse space in the Schlitz Park area north of downtown Milwaukee into his studio where he worked and lived a number of years before returning to Madison. In this space, he produced screen prints, but more importantly began his work on larger scale construction (*mixed media*) 'paintings' that were exhibited in local shows, the Milwaukee Art Museum, and the Rohr West Biennial show. Stefan is always experimenting with technique and imagery. Paper and tape constructions, beginning with the abstract, meander toward a figure or narrative displaying a complexity of surface within which simple figures emerge. "I am often challenging myself with unusual color combinations, the relevance of found objects, color and texture of everyday materials (*like tape*) in the ordering of simple compositions."

6. Brian McCormick, 407 North Brearly Street

He often combines the two media, adding watercolor to his prints. He is inspired by both the natural and built environments that create a special sense of place. Brian has been active showing his work in juried competitions regionally. More of Brian's work can be seen at U-Frame-It on Johnson Street; Gaston School Gallery in Cottage Grove; Outside the Lines Gallery in both Dubuque, IA, and Galena, IL; Water Street Gallery in Douglas, MI; and at his website: brianmccormick.artspan.com

The carving process is meditative, and the resulting images both stand alone or blend together in larger collages that reflect on how we remember places we've been. The images represented feature both local icons, as well as the mountainous landscapes of the west. Hannah also freelances as an illustrator and graphic designer.

Soon after, she returned to Madison and began working as a postdoctoral researcher at the University, in a carrot research lab. Realizing the beauty in the various pigmented carrots she worked with, Shelby wanted to find a way to artistically display her study organism; enter carrot earrings. Shelby has been making carrot, and other root crop, earrings for several years and has had trouble keeping up with demand. She will be displaying her earrings and several other pieces tying together nature and art.
